

For Immediate Release Available for International Engagements

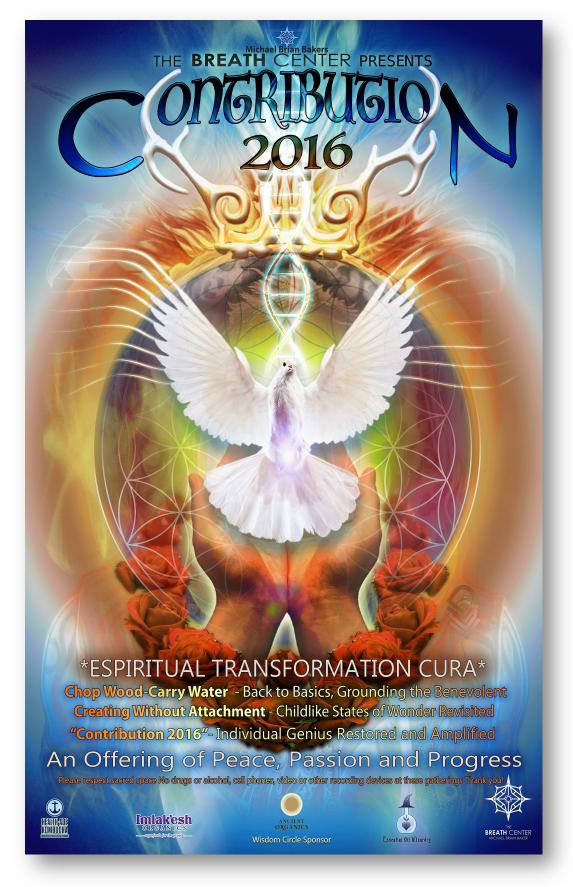

Renowned Breath Work Researcher and Facilitator Michael Brian Baker and his Breath Center Team are currently leading mass transformational gatherings at Yoga/Music Festivals, Conferences and Corporate Functions that blend the early works of Werner Erhard's EST and Landmark Forum Trainings with the nearly extinct, yet critical" Rite of Passage" and South American Medicine Ceremonies.

Combining Gene Keyes, Human Design, Yogic Pranayama and Quero Shamanism, these events are truly a unique and potent offering. These gatherings create newfound clarity for individuals who are looking to up level their productivity, dissolve procrastination, develop accelerated emotional intelligence and provide lifelong tools for managing stress reduction, anger, depression, and chemical dependency. Events are open to individuals of all levels and belief systems, no experience is required.

The Breath Center is a highly visible, transformational organization dedicated to the increased conscious productivity of top-level professionals through facilitation, education, and practice of respiratory therapies sometimes referred to as "Breath Work". Utilized by some of the world's most successful and innovation industry leaders in many different cultures and wisdom traditions, it is now a mainstream practice for the up leveling of intelligence, healing and awareness.

Michael Brian Baker is a featured facilitator and keynote speaker in the transformational, sustainability and spiritual/oral tradition communities.

Some might say...

"This is high level, yet simple, electro-biological technology, when something as simple as breath can offer one access to a different level on consciousness. All done in service to teach this to the workers, the soul workers, so that we remember all of this exists, because, it does... high level mystical technology with Michael Brian Baker... thank you, you do it well!" – Dr. Deb

"The most transformative experience of my life. I went in open to receive, not knowing what to expect. I felt my spirit released from my body, forgiveness, and gratefulness. I cried tears of joy and felt the oneness of all." – Liz C.

It is deeply inspiring for me and I feel that my experiences with it expand my connection to my inner truth and have somehow made me find more strength & determination to live in service to myself, community, and the divine." – Frank M.

It was beyond transformative and brought me back to a place of strength and health. I have been on a long journey recovering from trauma both past and now very recent in my life. This work has helped immensely and has reminded me that I hold the key to recovery through my own breath and vital life force." - Margot
