

The Breath Center Partnership Opportunity

Dear Prospective Partner,

Thank you for your consideration in merging mission with The Breath Center, one of the most "ahead of its time" healing organizations in the world.

Your opportunity to make a difference this season unites your companies mission with the actual healing and transformation for "real people" dissolving unproductive thought patterns and programs, actualizing their maximum potential and steeping into their highest service.

The US tour this year is entitled "CONTRIBUTION 2016: AN OFFERING OF PEACE, PASSION AND PROGRESS". It is a calling and aligning of our communities requesting that each individual step forward to reveal and share their gifts with our world.

The Breath Center is a non-denominational organization dedicated to the transformation, awakening, and accelerated evolution of humanity through the power of the breath. "Breath work" is a tool for healing and self-realization utilized in many wisdom traditions.

Its popularity is increasing in mainstream society via the rising popularity of yoga and other health centered modalities.

You are a pioneer in an age where concern for more than the bottom line is blossoming. Business owners are combining the ability to create increased profit margins while simultaneously educating and supporting the sustained health and brand loyalty of their customer base.

As we awaken together, the calling to make a difference is growing louder. Those who choose to support the increased conscious awareness and healing in others is a gift that cannot easily be repaid.

The Breath Center provides free services to thousands, sharing practices that effectively reduce incidence of stress-related illness, depression, heart failure, and other preventable diseases in a safe and non-invasive environment.

We humbly invite you to join us in shifting our world towards collective peace through collaboration.

Together we have the ability to reach hundreds of thousands of people, perhaps even millions?

Our will is to create lasting relationships in which all are fulfilled knowing they are contributing to a shared goal in a sustainable way.

What would it feel like to be one of the first organizations documented to support the healing of humanity and the true realization of world peace?

How far can you expand? What will your contribution be?

Thank you in advance for your time and consideration,

Michael Brian Baker

The Breath Center

P.S.

Rite of passage has been a huge void from society for ages. What makes The Breath Center unique is that the work can facilitate hundreds of thousands of people at one time. Our current offering is a group CURA or "The Cure". The word Cura is derived from ancient South American healing ceremonies that substitute the breath in place of spiritual plant medicines or entheogens. The results are nothing short of profound.

Like I said, we are way ahead of our time. I'm patient and willing to be persistent. Are you?

How will your CONTRIBUTION be distributed?

We have minimized expenses this year, cutting our guardian crew from 10 to 5.

All figures below are calculated on 5-member crew.
